

BURCKHARDT
OF SWITZERLAND

- «Easy-Open System» – EOS
- New opening & tear off perforation for full wrapped multipacks
- Quick and customer friendly, patent-registered system

Easy-Open System EOS

Machine type	Easy-Opening EOP
Description	The targeted perforating solution that tears where you need it!
Working width	Up to 1'600 mm
Materials	PE-films from 25 to 60 microns
Line speed	Up to 350 m/min with given film parameters
Perforation tools	Flexible design options on 150 x 150 mm space
Electronic control	Short programming and simple commissioning as well as integration into the production line Touch screen Siemens Profinet Siemens Simotion Controller with Profibus & Profinet interface + IO Remote access via Ethernet or GSM, thus control and remote maintenance possible Synchronisation of production line with print marks
Drive system	Siemens servo-motor with absolute value transmitter Drive-CLIQ
Voltage	400V + neutral differential does not start on supply by customer side
External dimensions	Total length: 3'225 mm, Depth: 732 mm, Height: 2'050 mm (without cover)
Options	<ul style="list-style-type: none"> • Independent measurement of film tension • Measurement via traction force indicator and analogue output • Acoustic shielding with sliding doors (ext. dimensions: 3'225x1'240x2'100mm)

Easy-Open

- A smart solution for easy opening of shrink-package as well as integrated detachable barcode
- A patent-registered system for pre-perforation of PE films

PET-bottles – easy opening with wrapping stability

Flexible perforation tool design

Opening perforation – easy opening

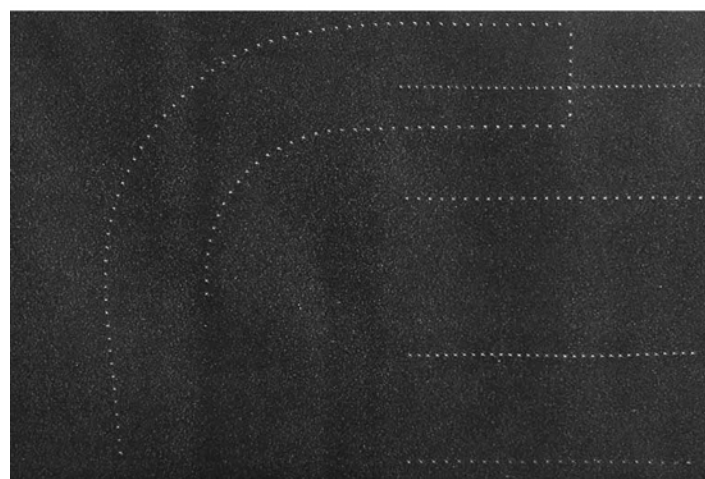

Tear off & opening perforation
